Health, Safety & Welfare Policy

Introduction

This policy is written within the framework of the Health and Safety at Work etc. Act 1974 and its subsequent Regulations. It is to be read in conjunction with the Corporate Health, Safety and Welfare Policy of the London Borough of Redbridge. A copy of the Corporate Health, Safety and Welfare policy should be displayed in the main office.

It will be reviewed, added to, or modified from time to time and may be supplemented in appropriate cases by further statements related to the work of the Service Area. Copies and subsequent amendments will be made available to all employees.

The success of this Policy depends on the active support of all employees to achieve its objectives.

The Establishment recognises the need for a well-defined policy setting out the standards it aims to achieve for protecting the health, safety and welfare of staff, pupils and others.

This Health, Safety and Welfare Policy sets out the organisation and arrangements for achieving this aim including the detailed responsibilities for key staff.

COVID-19 (Coronavirus) Pandemic

Due to the ongoing situation with the current pandemic a lot of Cranbrook Primary School's policies, procedures and practices have had to be changed or adjusted to coincide with the government's guidelines. These have changed regularly over the past 6 months and will probably carry on being reassessed as the current situation continues.

Changes to this particular document have been added and also references to other policies etc. have been included where more detail is needed.

We will continue to update this and other documents as and when required.

1 Policy Statement

This Establishment will provide a safe and healthy working and learning environment for staff, pupils and visitors, this will be achieved by implementing the health and safety objectives detailed in this Policy.

This Establishment attaches great importance to the health, safety and welfare at work of all its employees and other users, particularly children, parents and visitors. This Establishment will provide for its employees whilst working on the premises or elsewhere:

- Safe machinery and equipment, including vehicles;
- Articles and substances for use at work that are safe when properly used, stored, handled and transported
- Information, instruction, training and supervision to enable employees to work safely without risk to their health;
- Premises and places of work that are well maintained, have safe access and egress for all and are without risk to health & safety;
- Adequate welfare facilities

Although the prime responsibility for health and safety under the Health and Safety at Work Act lies with the Establishment, as the employer, high standards of health, safety and welfare can only

be achieved with the full co-operation and awareness of all staff.

..... (Head of Establishment) (Date)

..... (Chair of Governors) (Date)

1.1 Professional Advice

The London Borough of Redbridge (LBR) employs a team of professionally qualified Health and Safety staff who are available to assist the Establishment in the operation of its responsibilities by providing advice and guidance on matters of health and safety.

In addition, there are other officers within LBR who are able to provide advice on health and safety within their specialist areas (e.g. Asbestos, Legionella).

United Facilities Management (UFM) are currently contracted to carry out the majority of Cranbrook Primary School's essential scheduled maintenance and services.

2 Organisation and Responsibilities

Health and Safety within the school is the responsibility of all staff, these responsibilities are outlined in sections 2.1 – 2.16. Key health and safety roles that have been designated to individual staff are outlined in the organisation chart.

2.1 Governing Bodies of Community, Voluntary Aided & Foundation Schools

For Community Schools, the Governing Board works in conjunction with the Head Teacher and the Local Authority to ensure the effective management of health and safety within the school.

Specifically the Governing Board should ensure:

- There are satisfactory arrangements in place to implement the Council's Health, Safety and Welfare Policy;
- There are adequate arrangements for managing activities where there is no Council procedure;
- That it considers the health and safety implications of its decisions;
- Sufficient resources are allocated to ensure that health & safety can be successfully managed;
- That suitable standards of health & safety are achieved and maintained within the school by monitoring the School's health and safety performance on an annual basis.
- That the School's Health & Safety Policy and procedures are annually reviewed to ensure their suitability.

2.2 Headteachers of Community, Voluntary-Aided & Foundation Schools

Head Teachers are responsible for:

- Complying with the health & safety decisions of the Director of Children's Services;
- Producing the School's Health & Safety Policy. This shall include a statement of intent, individual health and safety responsibilities, and the organisation, arrangements and procedures;

- Establishing and maintaining systems within the School to ensure that health & safety is effectively managed;
- Appointing a Health & Safety Co-ordinator for the School.

(It is recommended that, in larger schools, a senior member of staff should be designated as Health and Safety Co-ordinator for the establishment);

- Acting as Asbestos Dutyholder
- Sufficient resources are allocated to enable health and safety to be successfully managed;
- The Corporate Health, Safety and Welfare Policy and this Policy are brought to the attention of all staff;
- Other health and safety information is communicated to relevant staff;
- Accidents are investigated and reported using the established procedures;
- Safety Representatives can carry out their functions including inspections and accident investigations and, where appropriate, that consultations take place with them. Where Safety Representatives are not appointed by the staff side association, adequate arrangements exist for consultation with all staff on health, safety and welfare issues;
- Safety Representatives inspection report forms are dealt with in an appropriate manner;
- Training needs are identified and met;
- Assessments for all risks to health and safety are carried out and the significant findings recorded, with appropriate preventative measures being taken;
- New employees receive appropriate health, safety and welfare information, instructions and training, including details of the Health, Safety and Welfare Policy, fire and other safety procedures;
- Fire precautions and procedures are implemented (including fire drills);
- Liaison is carried out with contractors;
- Appropriate arrangements are made with regard to lettings, where appropriate;
- Health and safety performance is monitored as specified in paragraph 3.24;
- Termly health and safety inspections of the School are carried out.

2.3 School Health and Safety Co-ordinator

Health and Safety Co-ordinators are responsible for:

- Establishing arrangements for dealing with health and safety matters such as:
 - Dissemination of health and safety information to all staff;
 - First aid;
 - Accident reporting;
 - Emergency evacuation procedures;
 - Ensuring accidents are investigated;
 - Ensuring health and safety matters raised by staff are dealt with;
 - Maintaining a central file of health & safety information relevant to the establishment;
- Liaising with Safety Representatives or other means of consulting with employees;
- Annually reviewing the Health, Safety and Welfare Policy

- Co-ordinating all aspects of Health, Safety and Welfare Policy and practice;
- Ensuring the implementation of the Safety Policy is monitored;
- Ensuring 'reportable' accidents are reported to the Borough and HSE.
- Co-ordinating all aspects of Health, Safety and Welfare Policy and practice
- Acting on behalf of the Asbestos Duty Holder to ensure that all responsibilities are met and that all contractors working in the Pavilion building sign the Asbestos Log
- Undertaking a termly Health and Safety inspection of the School;
- Carrying out a six monthly Health and Safety audit;
- Carrying out Health and Safety risk assessments and reviewing regularly;
- Annually reviewing the Fire Risk Assessment and Managed Evacuation Plan;
- Reviewing all Health and Safety policies and procedures;
- Producing an annual Health and Safety training plan and arranging training;
- Producing a prioritised Health and Safety Action Plan.

2.4 Line Managers

Line Managers are responsible for implementing the Health, Safety and Welfare Policy within their area of control. In particular they will need to ensure that:

- Appropriate health & safety information is held within the Department/Section;
- The Health & Safety appropriate safety signs or notices are displayed;
- Assessments for all risks to health and safety are carried out, the significant findings recorded, and the control measures as detailed in the risk assessment are implemented;
- Relevant health and safety information is communicated to staff;
- All accidents occurring in the Department/Section are reported; the causes are investigated and an accident report form is completed;
- Reasonable arrangements for allowing Safety Representatives to carry out their functions are complied with;
- Health and safety training needs of staff within the Department/Section are identified and met, or reported to Head Teacher;
- Staff are aware of the fire procedures;
- New employees receive appropriate health and safety information, instruction and training, including Departmental safety procedures;

2.5 Curriculum Leaders

Curriculum Leaders are responsible for implementing the Health, Safety and Welfare Policy within their Department.

In particular, Heads of Department will need to ensure that:

- Equipment within the Department is maintained in a safe condition. To achieve this the Head of Department will ensure that the equipment is subject to regular inspections by competent staff and an annual maintenance programme.
- Termly inspections are undertaken to identify hazards and unsafe acts and omissions within the Department, and that an action plan is produced to ensure that

any issues identified are resolved;

- New employees receive appropriate health and safety information, instruction and training, including Departmental safety procedures;
- Records are maintained of the Department's health & safety activities and risk assessments are reviewed annually

2.6 Class Teachers, Teaching Assistants and Learning Support Assistants

The health, safety and welfare of students in classrooms and other work areas is the responsibility of the class teacher, teaching assistant and learning support assistant. These rules also apply to student teachers who must be made aware of their responsibilities by a professional tutor.

A class teacher, teaching assistant or learning support assistant is expected to:

- Know the emergency procedures in respect of fire and first-aid and the special health and safety measures to be adopted in his/her own teaching areas and to ensure that they are applied;
- Be aware of, and follow, health and safety guidance;
- Exercise effective supervision of students and ensure that they know of the general emergency procedures in respect of fire and first-aid and the special safety measures of the teaching area;
- Give clear instructions and warnings as often as necessary (**notices, posters, hand-outs are not enough**);
- Ensure that students' coats, bags, cases etc, are safely stowed away;
- Integrate all relevant aspects of health, safety and welfare into the teaching process and if necessary give special lessons on health, safety and welfare;
- Follow safe working procedures personally;
- Ensure protective clothing, guards, special safe working procedures etc. are used when necessary;
- Make recommendations on health, safety and welfare matters to the health and safety co-ordinator.
- Supervise Work Experience students, Teaching Practise students and volunteers working within their classroom (Class Teachers only);
- Act as Fire Wardens when the fire alarm sounds (Teaching Assistants only).

2.7 Work Experience/Teaching Practice Students

Work Experience and Teaching Practice Students are responsible for:

- attending an Induction Session with the Assistant Headteacher which will cover Health and Safety, Child Protection and classroom practices;
- signing in and out via the Visitor Book each day (Work Experience only);
- reporting non-attendance to their own school (Work Experience only);
- familiarising themselves with the responsibilities of the Class Teacher (Teaching Practise students only).

Please see the Student Handbook for more information.

2.8 Technical Staff

Technical staff are responsible for ensuring health and safety within the practical areas in the Departments in which they work, including the ICT Rooms.

In particular, the ICT Technician is responsible for:

- Undertaking regular workplace inspections of the ICT Rooms to identify hazards and ensure good housekeeping.
- Undertaking regular equipment inspections, keeping equipment in good working order and keeping relevant inspection/maintenance records.
- Ensuring all hazardous substances are used, handled, transported and stored in accordance with the information outlined in COSHH assessments and other information sources (e.g. CLEAPSS).

2.9 Site Manager

The Site Manager is responsible for ensuring the health and safety of the site, in particular the Site Manager is responsible for:

- Ensuring that all fire exits are clear from obstruction and unlocked prior to the building being occupied;
- Undertaking and recording the weekly test of the fire alarm system;
- Organising the monthly test of the emergency lighting system;
- Undertaking and recording the monthly test of the magnetic door release mechanisms;
- Organising the monthly water temperature tests and weekly flushing regimes
- Checking the 'Premises Request Forms' at least daily, rectifying those issues within their authority and notifying the Head teacher of any unresolved issues;
- Undertaking termly inspections of the communal areas of the school to identify hazards;
- Liaising with lettees to ensure that they are aware of evacuation procedures and routes, hazard and accident reporting procedures.
- Supervising the Site team and cleaning staff and ensuring safe working practices are followed. This includes the use of Personal Protective Equipment and other safety equipment provided;
- Obtaining COSHH data sheets for new products from suppliers and passing them on to the Health and Safety Co-ordinator;
- Health and Safety for all areas throughout the school
- Using equipment such as ladders and tools safely and in line with the risk assessment;
- Using appropriate manual handling techniques and equipment when lifting and moving items.
- Acting on behalf of the Asbestos Duty Holder to ensure all contractors working in the Pavilion building sign the Asbestos Log
- Ensuring a record is maintained of all premises related maintenance and inspection reports

2.10 Cleaners

The cleaners are responsible for:

- using the Personal Protective Equipment provided;
- using appropriate safety signs including wet floor cones;
- being vigilant for hazards and building repairs and reporting them to the Site Manager.

2.11 Office Manager

The Office Manager is responsible for ensuring the health, safety and welfare of the Office Staff; in particular the Office Manager is responsible for ensuring that:

- Copies of completed accident forms are maintained. The forms will be retained for 3 years for adults and until the young person is 22 years old.
- an up-to-date medication list and medication is available at all times;
- an up-to-date parent contact list is available at all times;
- notifiable diseases are reported to the Health Protection Unit
- the safe storage of equipment in the office and that all office store rooms/areas are kept tidy
- all information is kept secure

2.12 Medical Room Staff

The Medical Room Staff are responsible for:

- maintaining and replenishing First Aid kits throughout the school which conforms to regulations and also preparing First Aid Kits for use off site;
- dealing with Injuries to pupils and staff as necessary and in accordance with LA procedures;
- in the case of a serious injury or illness, calling the emergency services and informing the Head teacher or Deputy Head teacher of the situation without delay;
- the safe storage of equipment, medicine and information within the Medical Room;
- the logging of all injuries of pupils and staff and keeping a record of any action taken;
- completing appropriate accident reporting forms.

2.13 Midday Assistants

The midday assistants are responsible for:

- the general safety of pupils in the dining areas throughout lunchtime;
- the general safety of pupils in the playground during lunchtime or classroom in the event of wet dinner times;
- supervising the immediate evacuation of the pupils if the fire alarm sounds during the lunchtime
- making sure that all pupils are lined up in their correct classes during an evacuation ready for checking registers;
- administering and recording first aid for minor injuries.

2.14 Breakfast and After School Club Supervisor / Staff

The health, safety and welfare of students at the Club is the responsibility of the Supervisor who is also responsible for:

- supervising the Club staff and ensuring safe working practices are followed;
- ensuring new employees receive appropriate health and safety information, instruction and training;
- ensuring regular inspections are carried out;
- carrying out Health and Safety risk assessments and reviewing regularly.

All Club staff are expected to:

- know the emergency procedures in respect of fire, first-aid, food hygiene and health and safety procedures to be followed and to ensure that they are applied;
- exercise effective supervision of students and ensure that they know of the general emergency procedures in respect of fire and first-aid and the special safety measures in the Club;
- administer and record first aid for minor injuries (if qualified to do so);
- be vigilant for hazards, deficiencies and repairs needed and report them to the Club Supervisor and Site Manager;
- ensure the safe storage and use of items in the Club including training children in the correct use of equipment.

2.15 Asbestos Duty Holder

The Asbestos Duty Holder (the Headteacher) must ensure that they have written asbestos management systems in place to provide information to those that could be at risk of exposure to asbestos fibres and avoid such exposure, if possible.

The appointment of contractors or any other persons carrying out works, will require comprehensive control systems in order to comply with the duty to supervise and monitor their activities.

Control and safety management systems must include the following:

- Ensuring that only appropriately accredited and competent contractors work on site and where work involves working with asbestos, the contractor must be licensed by the Health and Safety Executive;
- Contractors must be given access to any relevant information from the asbestos register and must be advised to assume that materials contain asbestos unless there is evidence to the contrary;
- Ensuring that relevant information is held on site in a secure location and warning notices are displayed on site if relevant;

- Ensuring that the Asbestos Information Poster is displayed at the reception point.
- Making sure that employees on the premises are fully aware that there are asbestos containing materials (ACM's) in the building (if applicable) and where it is located;
- Ensuring no works take place which could disturb asbestos containing materials without first consulting the asbestos register for the premises;
- Ensuring all contractors, and any other person undertaking work on the fabric of the building, sign the asbestos register confirming they had access to the information contained in the register and are carrying out the work in the full knowledge of the possible potential risks;
- Advising the Borough Asbestos Management Team where known asbestos or asbestos containing materials have become damaged or where planned works are programmed.

It is recommended that the duty holder **always** obtain a signature from persons carrying out the work, confirming that they are appropriately trained for the works, which they will undertake. This is essential where works could affect asbestos containing materials.

Note: It is a legal requirement for the duty holder(s) to have annual asbestos awareness refresher training

2.16 Educational Visits Co-ordinator (EVC)

The EVC is responsible for ensuring that all trips and visits are approved in accordance with the Borough's Policy and that the visit leader completes a suitable and sufficient risk assessment.

2.17 COSHH Co-ordinator

The COSHH Co-ordinator is responsible for ensuring that:

- Managers consider whether the hazardous substance they are intending to use could be eliminated altogether or replaced by a safer alternative prior to considering other control measures;
- Suitable & sufficient COSHH assessments are completed for all the hazardous substances used on site;
- No new hazardous substance is used by the school's employees or students until a suitable & sufficient COSHH assessment has been completed;
- The Authority's COSHH Do's and Don'ts poster is displayed in all locations where hazardous substances are stored and/or used regularly;

2.18 Fire Wardens

Fire wardens are responsible for:

- Familiarising themselves with their areas of responsibility, the escape routes and any problem areas;
- On hearing the fire alarm they are responsible for:
 - Ensuring the safe evacuation of everyone in their area(s) of responsibility

- Checking all rooms in their area(s) of responsibility; including toilets, rest rooms and store rooms; to ensure that everyone has safely left the building.
- Where possible, closing windows and doors as each room is checked;
- Reporting to the Incident Control Officer to inform them that everyone has safely evacuated the building, or to report any problems;
- Ensuring that nobody re-enters the building until the Incident Control Officer has stated it is safe to do so;
- Ensuring they are available, after the evacuation, to attend a debrief meeting to discuss the evacuation, identify any problems and share information.
- Monitoring to ensure that fire routes and exits are kept clear at all times.

2.19 First Aiders

First Aiders are responsible for:

- Taking charge when someone is injured or falls ill;
- Administering first aid in the event of an injury;
- Calling for an ambulance, if required;
- Looking after first aid equipment and ensuring it is restocked;
- Keeping up to date with first aid training and ensuring they attend refresher training prior to the expiry of their first aid certificate.

2.20 All Employees

Although prime responsibility for health and safety rests with the Borough and senior managers, all employees also have responsibilities. Employees are required to:

- Take reasonable care for their own health, safety and welfare and that of other persons affected by their acts or omissions;
- Co-operate with their employer, so far as is necessary, to enable it to meet its responsibilities for health, safety and welfare;
- Be aware of, and follow, health and safety guidelines;
- Use work equipment provided correctly, in accordance with instructions and training;
- Inform their line manager of any work situations that represent a serious and immediate danger to health, safety and welfare. The establishment has a formal hazard reporting system, details of which are contained in Section 3.42;

In addition, female workers must notify their employer as soon as possible after they become pregnant in order that a risk assessment can be carried out to ensure the safety of the mother and unborn child.

2.21 Safety Representatives

In accordance with the Safety Representatives and Safety Committee Regulations, recognised trade unions can appoint Safety Representatives who will, if necessary, take up matters on behalf of employees. The names of workplace representatives are to be displayed on the premises*. The training of Safety Representatives is the responsibility of the appropriate trade union. The Establishment will provide its Safety Representatives

with reasonable time off to undertake any training necessary and to undertake their duties.

* Normally displayed on the "Health and Safety Law – What you need to know" poster.

3 General Arrangements for Implementing the Health, Safety and Welfare Policy

3.1 Accident/Incident Reporting & Investigation

An accident is an unplanned event that results in injury or damage.

A near miss is an unplanned event that does not result in injury or damage.

All incidents should be reported to the appropriate manager and where required, the council's internal report form completed. A copy of this form should be emailed to the H&SAccidentReporting@redbridge.gov.uk. Where access to the Redbridge intranet is available the online version should be completed and submitted.

Due to potential additional reporting requirements, please ensure that these forms are completed as soon as possible, and no later than **10** days after the incident.

Blank copies of the accident reporting forms are located in the Medical Room

The "Blue Dot" `Accidents & Incidents Reporting Procedures Wall Chart, which briefly outlines the reporting requirements is displayed in the Medical Room and Staff Room

Please note, the report form has a section `action taken to prevent a recurrence'. All accidents are required to be investigated, and this section should be completed to reflect any action taken. Where no further action is required this should be entered into the form to demonstrate that management have considered this.

Where appropriate, accidents may also be investigated by the LBR Health and Safety staff, Lucas and Fettes Insurance or the Health and Safety Executive.

Incidents which fall within the requirements of the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) e.g. specified injuries, accidents resulting in employees being absent from work for more than 7 days, or members of the public going to hospital from the scene of the accident etc will be reported to the Health and Safety Executive by the Health and Safety function.

Further information on accident reporting and investigation can be obtained from the following websites:

<http://www.hse.gov.uk/pubns/edis1.pdf> or by calling the Health and Safety function, on 020 8708 3152

3.2 Asbestos

The Control of Asbestos Regulations places a duty on the "Asbestos Duty Holder" to manage any asbestos or asbestos containing materials located within the premises.

The Asbestos Duty Holder is generally the person who has (or persons who have) clear responsibility for the maintenance or repair of the premises e.g. Head Teacher and Site Manager.

The Asbestos Duty Holder is the Headteacher, Jas Leverton. The School Business Manager, Amanda Irons and Site Manager, Stephen Tindling, will act on her behalf to meet the responsibilities.

Each establishment has an Asbestos Register that identifies whether asbestos or asbestos containing materials are present within the premises, the location, the type of asbestos and its condition.

The Asbestos Register is located in the School Office

In addition, there is an Asbestos Information Sheet, which outlines the processes to be followed prior to work commencing in the Pavilion building; and also, what to do if any suspected asbestos material is damaged in any way. The Asbestos Information Sheet is displayed in the Asbestos register which in turn is located in the School Office.

It is the responsibility of the Asbestos Duty Holder to ensure that **anyone**, contractors or staff, who intend to work on the fabric of the building, read the Asbestos Information sheet and consult the Asbestos Register prior to commencing work in order to ensure where they will be working is free from asbestos and asbestos containing materials, and that they sign the register to demonstrate they have consulted and understood it.

If, during the course of the task, further work needs to be carried out at a different location, the Asbestos Register must be consulted again and be resigned and dated.

Please note that the Asbestos Register was compiled following discovery of possible asbestos in the Riser cupboards in the Pavilion building. A Type 2 asbestos survey has not been carried out. Any intrusive work will require a Demolition/Refurbishment asbestos survey to be carried out prior to the work commencing.

Any queries regarding asbestos in the premises, or how to arrange for a Demolition/Refurbishment survey, should be referred to the Asbestos Duty Holder, who will consult with the Council's Asbestos Team.

Asbestos Awareness refresher training is required to be carried out on an annual basis.

3.3 Breaktime Safety

Playtimes

A minimum of three members of staff should be on duty in the playground. They are responsible for patrolling all areas and stopping or averting incidents, as well as dealing with accidents in the first instance.

On hearing the bell at the end of play, the children should stand still and await the second bell or their class name. They should then walk quietly to their designated area to line up. All staff should enforce this.

During inclement weather, the children remain in their classrooms. All duty staff should patrol and monitors from Year 6 are assigned to help supervise in classes with younger children. The Site Manager should cordon off all unsafe/slippery areas.

The Site Manager checks all fixed apparatus on a regular basis and an annual inspection is carried out by ROSPA. Any defects should be dealt with immediately or the apparatus put out of order and a contractor called.

Lunchtimes

The Midday Assistants are responsible for the supervision of the children in the dining hall and the playgrounds. A minimum of two members of staff should be on duty in each playground area. They should also actively patrol the corridors and toilet areas. No child should be permitted to enter the school unsupervised or unaccompanied.

Midday Assistants are responsible for dealing with accidents and administering first aid for minor injuries. They should send any child who has sustained a significant injury or who reports a blow to the head to the Medical Room immediately.

Hot Drinks

Hot drinks are permitted during playtime duty when using Safety Beakers.

3.4 Cleaning

The cleaners work under the direction of the Site Manager and are responsible for cleaning the buildings. Cleaning schedules are organised by the Site Manager who has the responsibility of ensuring high standards are maintained and the specifications met.

The Site Manager is responsible for the ordering and safe storage of all necessary cleaning materials and supplies, for ensuring that the cleaners use the Personal Protective Equipment provided and that safe working practices are followed.

Please see the 'COVID Risk Assessment' for additional conditions, practices and precautions that have been added to the cleaning regime.

3.5 Communicable Diseases

Due to the age and number of children present in educational establishments it is not uncommon for them to contract a variety of communicable diseases.

North East and North Central London Health Protection Unit have produced Guidance on 'Infection Control and Communicable Diseases in Schools, Colleges and Nurseries'.

This document provides guidance on the prevention and spread of communicable diseases, and promotes a co-ordinated approach to the management of communicable disease in schools, colleges and nurseries.

The exclusion periods for common infectious diseases and skin infections are also included in this document.

A copy of the exclusion period chart is located in the Medical Room, School Office and Staff room

The current guidance is located in the Medical Room

The school now has an 'Isolation Room' to cater for children or staff in the event that they have suspected symptoms of COVID-19. The child will remain there until their parent/carer is available to collect the child.

Please refer to the 'COVID Risk Assessment'.

3.6 Consultation with Employees

Under the Health and Safety (Consultation with Employees) Regulations and the Safety Representatives and Safety Committees Regulations an employer has a duty to consult with employees on matters of health and safety.

Employees will be consulted on the following:

- The introduction of any measure which may substantially affect their health and safety at work;
- Arrangements for getting competent people to help them comply with health and safety laws;
- Information on risks arising from their work, measures to reduce or get rid of those risks and what employees should do if they are exposed to a risk;
- The planning and organisation of health and safety training and the health and safety consequences of introducing new technology;

This establishment will consult with staff in the following ways: Weekly staff briefings

3.7 Control of Contractors

This School recognises its' responsibilities in relation to the use of contractors. In any client/contractor relationship, both parties will have duties under health and safety law. Similarly, if the contractor employs sub-contractors, to carry out some or all of the work, all parties will have some health and safety responsibilities.

The school has opted out of the Borough's SMADS contract and have entered into a contract with United FM. All works are arranged via them. This means that United FM takes on the role of the client of our behalf and will need to satisfy themselves that contractors are competent (i.e. they have sufficient skills and knowledge) to do the job safely and without risks to health and safety. The degree of competence required will depend on the work to be done.

United FM are required to agree the risk assessment for the contracted work and the preventative and protective steps that will apply when work is in progress. Consideration should be given to those risks from each other's work that could affect the health and safety of the workforce or anyone else.

United FM are required to manage and supervise the work of the contractors. The more impact the contractor's work could have on the health and safety of anyone likely to be affected, the greater the management and supervisory responsibilities of the client. Clients therefore need sufficient knowledge and expertise to manage and supervise the contracted work.

The School will ensure that contractors visiting their premises do not pose a risk to their own health and safety or that of others present within the establishment.

The School Office Team or Site Team are responsible for ensuring that all contractors on site are aware of the asbestos log, fire and emergency evacuation procedures. The Site Manager should inform all contractors of any known hazards that might affect them whilst at work. Contractors in turn should notify the Head of Establishment of any hazards arising from their activities, which may affect the occupants of the establishment.

The Catering staff are responsible for the safety of the kitchen and must notify the Site Manager or Head teacher of any hazards.

Contractors must comply with the following procedures:

- Contractors should report to the School Office on arrival to sign into the Visitors System and to read and sign the Asbestos Log (if required). They should return to the School Office before leaving site to sign out;
- If the school is not in session, the contractors should report initially to the Site Manager who will provide access;
- A site meeting should be held prior to works starting to discuss Health and Safety issues;

- Contractors should be advised that the safety of pupils and adults on site is paramount.
- Potentially dangerous activities such as grass cutting or hedge trimming should cease while children are using the grounds for playtimes, lunchtimes or games activities;
- Contractors should be advised to evacuate the building if they hear the fire alarm bell and to assemble in the playground where they should report to the School Office.

Further information is available from the HSE document "Use of Contractors - a joint responsibility", HSE INDG 368

3.8 Control of Substances Hazardous to Health

The Control of Substances Hazardous to Health (COSHH) Regulations impose duties on employers to protect employees who may be exposed to substances hazardous to health at work, and others who may be affected by such work.

COSHH covers chemicals, products containing chemicals, fumes, dusts, vapours, mists, gases, and biological agents (bacteria, fungi and viruses). If there is a hazard symbol displayed on the packaging then the contents are classed as a hazardous substance. COSHH also covers asphyxiating gases, biological agents that cause diseases such as Leptospirosis or Legionnaires Disease; and biological agents used in laboratories.

COSHH does not cover lead, asbestos or radioactive substances because they have their own specific regulations.

This Establishment will ensure that COSHH assessments will be carried out on all hazardous substances prior to use. The COSHH assessment, which provide information on specific hazards, first aid measures, personal protective equipment etc. will be reviewed as appropriate, or every five years, whichever is the sooner.

A COSHH assessment can be obtained by contacting the school's COSHH Co-ordinator.

The COSHH Co-ordinator is Stephen Tindling

A copy of the "COSHH Do's and Don'ts" poster should be displayed wherever hazardous substances are used or stored, including the cleaners' cupboards.

The COSHH Do's and Don'ts Poster is displayed in all cupboards containing cleaning materials or other COSHH items, by the Site Manager's Desk and on the H&S Noticeboard in the Staff Room.

Further information on COSHH can be obtained from the COSHH file which is located in the Site Managers Office

3.9 Display Screen Equipment

The Display Screen Equipment (DSE) Regulations require employers to minimise the risks to employees who habitually use display screen equipment as a significant part of their normal work.

Other people, who use DSE only occasionally, are not covered by the requirements of the regulations, however, employers still have general duties under other health and safety at work legislation.

'Users', as defined by the Regulations, can be identified by completing the DSE User questionnaire.

Where users are identified, the following must be ensured:

- Workstations are assessed using the HSE workstation assessment checklist and the risks reduced, as applicable;
- Workstations meet the minimum requirements as outlined on the HSE checklist;
- Work is planned to allow adequate breaks or changes of activity;
- On request, eye tests are arranged, and a contribution made towards spectacles if they are required for DSE use; and
- Health and safety training and information is provided.

Completed User forms and DSE assessment checklists are located in the Site Managers Office

When a DSE User requests an eye test, a completed copy of the Eye and Eyesight Test form should be completed and taken along to the appointment.

Further information can be found on the HSE website: www.hse.gov.uk/msd/dse

3.10 Driving

Under the Health and Safety at Work Act, employers have a general duty to ensure the health, safety and welfare of employees and others who may be affected by their undertaking. This includes employees who may be required to drive as part of their duties. They may be required to drive either their own private vehicle or an LBR vehicle, e.g. minibus (see section 5.18).

Staff may drive pupils in their own vehicles only if written permission has been obtained from their parent/guardian and provided their licence, MOT, Tax and Insurance are valid for such an activity.

Electronic copies of permission slips are located in: The Educational Visits File in the School Business Manager's Office

3.11 Electricity at Work

The Electricity at Work Regulations set out specific requirements on electrical safety. These regulations place a duty on employers to ensure that electrical systems are designed,

constructed, used and maintained so as to prevent danger. 'Systems' includes all apparatus as well as the mains supply.

All portable electrical appliances should be visually checked before use. In particular, attention should be paid to the condition of power cables and of their terminations, as these are often damaged, wrenched and jerked, which may loosen their connections.

All portable electrical equipment should be visually inspected before use, equipment used and moved regularly such as drills, irons, kettles etc should be subject to a detailed inspection and test by a competent person periodically. A written record of the tests, in the form of a logbook or register, should be maintained and be available for examination and the equipment itself should be marked with some form of identification and the date of the most recent test.

Portable Appliance Testing is carried out by AGG and the next test is due in May 2018. The records are accessed via an online website provided by AGG

Fixed electrical installations should be inspected by a competent person at least every five years.

Mains Electrical Testing will be carried out in August 2021 and the records are maintained by the Site Manager and held in the Site Manager's Office.

Staff and pupils may not bring their own personal electrical appliances into the School.

3.12 Educational Visits

The Health and Safety at Work Act places a duty on employers to ensure the health, safety and welfare of employees and others (pupils) who may be affected by the work activities. This includes all educational visits, whether local, national or international.

In order to safely manage educational visits *the* Establishment follows the guidance provided in the LBR Children's Services document "Requirements for Educational Visits" using the online educational visits software package "Evolve" as applicable.

In accordance with this guidance this Establishment has appointed an Educational Visits Co-ordinator, and developed a school Educational Visits Policy based on the DFE and Children's Services Guidance.

The Educational Visits Co-ordinator (EVC) is: Stephen Tindling

The school Educational Visits Policy is located on the H&S noticeboard in the Staff Room and is stored electronically on EVOLVE

No educational visit will be allowed to proceed unless an educational visits risk assessment has been completed and the visit has the approval of the EVC and Head Teacher and, for adventurous activities, residential visits and international visits, the local authority.

Please see the Educational Visits Policy for more information

3.13 Fire Safety, Fire Evacuation Procedure and other Emergencies

The Regulatory Reform (Fire Safety) Order places duty on employers to conduct a fire risk assessment and take reasonable steps to reduce the risk from fire.

Each establishment should have a "Responsible Person" who is ultimately responsible for fire safety and who may have other competent people to assist them to carry out their duties. These include undertaking a Fire Risk Assessment, Emergency Evacuation Plan, and Personal Emergency Evacuation Plans (PEEPs) for staff or pupils with impaired mobility.

The Responsible Persons for this School are the Director of Children's Services, the Chair of Governors and the Headteacher.

The competent people for fire safety are:

- Calling the Fire Brigade is the responsibility of the School Office
- Liaising with the fire brigade is the responsibility of the Headteacher or School Business Manager
- Collecting class registers, staff book and visitors book is the responsibility of the School Office
- Fire wardens are the Teaching Assistants
- Organising fire drills is the responsibility of the School Business Manager
- Organising fire safety training is the responsibility of the School Business Manager
- Quarterly inspections of the fire alarm, emergency lighting, fire door magnetic holders are carried out by United FM
- 13 Weekly checks of the fire alarm call points and monthly fire door magnetic holders are carried out by the Site Manager
- Monthly emergency lighting checks are carried out by UFM
- Annual inspection of the fire extinguisher and fire fighting equipment is carried

The current Fire Risk Assessment, Emergency Evacuation Plan and Personal Emergency Evacuation Plans (PEEPs), if applicable, and fire safety information are located in the electronic Health & Safety Archive.

It is the responsibility of the Site Manager to ensure that the Fire Risk Assessment, Emergency Evacuation Plan and PEEPS are undertaken and reviewed as necessary, and keeping the contents of the fire safety folder up to date.

Blue Dot 'Fire instruction notices' are displayed throughout the premises advising the actions to be taken on discovering a fire/on hearing the alarm.

The Site Managers is responsible for ensuring the "Blue Dot Fire Instruction" notices are appropriately display.

Fire Instruction Notice PS 1234 is displayed near all fire alarm call points.

Fire Instruction Notice PS 0699 is displayed in all communal areas and offices.

All staff have a duty to be aware of the fire and emergency procedures, to ensure that all escape routes and fire exits are kept clear, and to report any defective or damaged fire fighting equipment, such as fire extinguishers.

Any fire that occurs within the premises, however minor, must be reported to the Head Teacher and to the Health & Safety function using the LBR incident reporting system.

Fire Evacuation Procedure:

- Any person discovering a fire should raise the alarm by breaking the nearest break glass call point
- On hearing the fire alarm, everyone will evacuate the building in accordance with the instructions on the Blue Dot Fire Action Notices. Doors should be closed as rooms and corridors are emptied
- All persons should assemble at the Assembly Point which is the main playground. Children should line up in their class groups
- The fire wardens will sweep through the building to ensure all persons are out and will report to the Head that their area is clear or the location of any smoke or fire
- The school office staff will take out the class registers, staff register and the visitors' book so that checks may be made to ensure no one is left in the building. The school office will call the Fire Brigade
- No one must re-enter the building unless told to do so by the Fire Brigade (if in attendance) or the Headteacher. Preserving life should take priority over saving property

Please see the 'FIRE SAFETY POLICY' and the 'FIRE RISK ASSESSMENT' for changes reflecting the current COVID-19 pandemic.

Suspicious Packages

Any package considered suspect should be isolated and under no circumstances should it be opened or touched in any way. The Police and Fire Brigade should be summoned immediately. The Head teacher should decide if school evacuation procedures are necessary and take appropriate action.

Bomb Threat Calls

Any threats or warnings received as to the placing or presence of a bomb on the premises must be taken seriously and the following should happen:

- The School should be evacuated – see Total Evacuation of the Site below
- The Police should be summoned immediately
- The Head teacher should inform the Children’s Services at once by telephone and this should be followed later by a written report
- No one should be allowed to re-enter the School until the Emergency Services have declared it safe.

Total Evacuation of Site

If total evacuation of the site becomes necessary the children will be taken to Frenford Club. Each class will walk with their teacher and, if possible, at least one other member of staff.

A notice should be posted at the school gates informing parents of the whereabouts of their children and stating that they should be collected as soon as possible;

The school office staff should take the parent contact list containing children’s addresses and phone numbers so that parents may be informed.

Please see the ‘MANAGED EVACUATION PLAN’ for changes reflecting the current COVID-19 pandemic.

3.14 First Aid

The Health and Safety (First-Aid) Regulations set out a duty of care on employers to provide adequate and appropriate first aid provision for employees.

The Health and Safety (First-Aid) Regulations do not oblige employers to provide first aid for members of the public. However, LBR Service areas that provide a service for others, including schools, should include the public, pupils and others on their premises when making their assessment of first aid needs.

A first aid assessment of needs has been undertaken by the Business Manager using a First Aid Needs Assessment Form. A copy of the completed form is located in the First Aid file in the School Business Managers office.

It is usually necessary to ensure that there is at least one first aider available at all times, taking into consideration staff absence, holidays, lunch breaks, before and after hours, etc

Staff nominated to administer first aid will attend one of the following courses: first aid at

work, emergency first aid, and paediatric first aid. (Which ever is deemed most appropriate).

The First Aid Boxes for this Establishment are sited in the following locations:
Each classroom has a First Aid Protection Kit
The Medical Room has a First Aid station
The Small Hall has a first aid facility
The 1st and 2nd floor have a first aid kit in the central corridor
There are 4 portable first aid boxes for Educational Visits and off-site games

The person responsible for maintaining the First Aid boxes is: Welfare Assistant based in the Medical Room

Notices are displayed throughout the premises advising of the locations of first aid boxes and the names of first aiders.

Any member of staff, child or visitor to the School who requires first aid should go to the Medical Room. If the injured party is unable to go to the School Office due to the extent of their injuries, the School Office should be informed and they will send a First Aider to the scene.

Any accidents requiring first aid must be recorded using the accident reporting procedure.

Please see the First Aid Policy for more information including our procedures for illnesses, minor accidents, serious accidents and blows to the head. Further information can be found in The Department for Education (DFE) booklet first aid in schools.

Please see the '**First Aid Policy**' for changes reflecting the current COVID-19 pandemic

3.15 Gas Safety

Under the Gas Safety (Installation and Use) Regulations and the Gas Safety Regulations, any work on gas systems and appliances could only be carried out by persons registered with the Gas Safe register.

Work on gas systems and appliances can only be undertaken by persons who are Gas Safe Registered.

The School Business Manager / Site Manager is responsible for ensuring that gas appliances will be regularly serviced by competent persons.

Annual servicing will be carried out by United FM, records are maintained by the Site Manager and held in the Site Managers Office.

If you smell gas:

- Do not use any naked flames/other ignition sources

- Open doors and windows
- Contact the gas board
- Do not switch on or off the lights or any portable switch appliance switch
- Shut off the gas
- Evacuate the premises, if appropriate

3.16 Health & Wellbeing (Including Employee Assistance Programme)

The Health and Safety at Work Act establishes a duty for employers to ensure the health, safety and welfare of employees, whilst at work. This includes not only their physical health, but also their mental health and wellbeing. The Management of Health and Safety at Work Regulations require a general risk assessment of all risks in the workplace, and this will include the risk to staff from stress.

The HSE defines stress as *"the adverse effect people have to excessive pressure or other types of demand placed on them"*.

This Establishment recognises that stress per se is not an illness, but can result in stress related illness such as anxiety or depression. Accordingly a risk assessment has been undertaken to identify the main potential stressors and the control measures required in order to reduce the risks to staff.

Schools Advisory Service (SAS) is Cranbrook Primary School's current staff support service which all members of staff can access by simply downloading the app from the SAS web page at schooladvice.co.uk

Alternatively the following phone numbers can be called for a number of different health enquiries:

- | |
|--|
| <ul style="list-style-type: none"> • Medical Operations Enquiries – 01773814400 • Stress Counselling – 01773814402 • Relationship Counselling – 01773814402 • Physiotherapy – 01773814403 • Cancer Support Service – 01773814404 • 24 Hour GP Helpline - 08454031037 |
|--|

Where necessary, the Establishment can refer the employees to the Council's Occupational Health Unit via the Employment Relations Team.

3.17 Information, Instruction and Training

The Health & Safety at Work Act establishes the duty of the employer to supply employees with such information, instruction, training and supervision as necessary to ensure their health and safety at work.

This establishment is committed to providing all staff with the appropriate information, instruction, training and supervision to enable them to undertake their duties safely and

without risk to themselves or others.

Induction training will be provided to all new employees appropriate to their role.

Health and safety training, and refresher training will be organised for staff as appropriate, and training records (including induction) will be kept.

Health and safety training records are kept by the Site Manager and are located in the electronic Health and Safety Archive.

3.18 Legionella

The Control of Substances Hazardous to Health Regulations relates to the risk from hazardous microorganisms, including Legionella. Under these Regulations, risk assessments and the adoption of appropriate control measures are required to be put in place.

The school will ensure that an adequate risk assessment of the water systems in its buildings is carried out; and will identify and assess the risk of exposure to Legionella bacteria from work activities and water systems on the premises and any necessary precautionary measures.

As part of the United FM contract, the Water Risk Assessment has been undertaken by Calibre Environmental and is located in the Site Manager's Office.

All water systems are subject to monitoring, inspection and testing at regular intervals by a competent person. The written records of the risk assessments, monitoring, inspection and test, in the form of logbook or register, should be maintained and should be retained for at least 5 years.

Regular monitoring, inspection and testing will be carried out by Calibre Environmental
Records will be maintained by the Site Manager and held in the electronic Health and Safety Archive.

Any queries regarding Legionella risk management should be referred to the Site Manager who will consult with United FM

Further information can be found on HSE website www.hse.gov.uk/legionnaires

3.19 Letting of the School Premises

Employers have a general duty under the Health and Safety at Work Act to ensure the health, safety and welfare of their employees at work, and others who are not employees but use their premises.

The Act also requires that when parts of the building are used by other organisations that there is "co-operation and co-ordination" between the two parties for the purposes of health and safety.

This Establishment will ensure that the appropriate health and safety information is passed to the hirer, using the Letting of Educational Premises Checklist.

The lettings Officers are responsible for providing the hirer with appropriate health and safety information and ensuring they sign a copy of the lettings checklist.

Completed checklists are located in the Lettings Folder.

Where the hirer is undertaking activities that require personal qualification or proficiency (for example martial arts), the school will check to ensure competence of the instructor prior to the letting being agreed.

Lettings are organised by Rahima Patel and Letting documents are located in her office

Please see the Lettings Policy for further information

3.20 Local Exhaust Ventilation

The Workplace (Health, Safety and welfare) Regulations specify general ventilation requirements.

The Control of Substances Hazardous to Health (COSHH) Regulations require that, where hazardous substances are used, they should either be contained or safely dispersed (i.e. Local Exhaust Ventilation). The regulations also set compliance requirements for LEV systems used to control exposures to hazardous substances.

The school will ensure that all LEV systems are maintained to standards suitable for their purpose and that visual checks are carried out every week by trained personal.

The following staff will be responsible for carrying out visual checks of LEV systems:

The Site Manager

Kitchen staff (for LEV within the Kitchen)

All LEV systems should be subject to a thorough inspection and testing at least every 14 months by a competent person. The written records of the visual checks (with findings), test and inspection, in the form of logbook or register, should be maintained for at least 5 years and be available for examination.

Annual inspection and testing will be carried out by United FM. Records are maintained by the Site Manager and held in the Site Manager's office

Further information can be found on HSE website:

Local exhaust ventilation systems (LEV)

LEV Guidance Sheet 200 – COSHH Essentials

INDG408 - Clearing the air - guide to buying and using LEV

INDG409 - Time to clear the air - A workers' pocket guide to LEV

3.21 Lifting Operations and Lifting Equipment (LOLER)

LOLER applies to any item of lifting equipment including new or existing equipment, second-hand or leased equipment and the accessories used for lifting.

- Lifting equipment is work equipment designed and used for lifting and lowering loads; such as cranes, lifts, and hoist; and includes its attachments used for anchoring, fixing or supporting it.
- Accessories for lifting are work equipment for attaching loads to machinery for lifting, such as chains, ropes, slings, hooks, shackles and eyebolts.
- Load includes a person.

Generally, the Regulations require that lifting equipment provided for use at work is:

- Strong and stable enough for the particular use and marked to indicate safe working loads;
- Positioned and installed to minimise any risks;
- Used safely, i.e. the work is planned, organized and performed by competent people; and
- Subject to ongoing thorough examination and, where appropriate, inspection by competent people.

This Establishment requires that all lifting equipment be clearly marked to indicate the safe working load. Where the safe working load is affected by the configuration of the equipment, then the equipment must be marked to indicate its safe working load in each configuration. Accessories for lifting, such as slings, must also be marked with their safe working load.

It is the responsibility of the Site Manager to ensure all lifting equipment and accessories are marked with the safe working load.

This Establishment also requires that all lifting operations are properly planned by a competent person, appropriately supervised and carried out safely. This includes undertaking either a generic or specific risk assessment of the operation, as appropriate.

It is the responsibility of the Health & Safety Co-ordinator to risk assess, plan and supervise all lifting operations to ensure they are undertaken safely.

Staff must not use lifting equipment unless they have received appropriate training and must use the equipment in an appropriate manner, according to the information received in training and from their line manager.

It is the responsibility of the Health & Safety Co-ordinator to arrange staff training and refresher training as appropriate, and to ensure that records of staff training are maintained. Records are located in the H&S Training folder in the School Business Manager's Office

This School requires that all lifting equipment undergoes a thorough examination by a competent person before it is first put into use, unless the equipment has an EC declaration of conformity made not more than 12 months before the equipment is put into service or it is accompanied by physical evidence of its last thorough examination.

Ongoing thorough examination must also be undertaken to ensure that lifting equipment remains safe for use. In the case of lifting equipment for the lifting of persons or an accessory, a thorough examination is required at least every 6 months, for other lifting equipment a thorough examination is required at least every 12 months.

It is the responsibility of the Site Manager to arrange for all lifting equipment and accessories to be thoroughly examined by a competent person, at appropriate intervals.

Examination records will be held in the Site Manager's office.

All defects of lifting equipment or lifting accessories must be reported and the equipment taken out of use until the defect is rectified.

All defects must be reported to the Site Manager.

This School requires that the following documentation is kept:

- An EC Declaration of conformity to be kept for the life of the equipment.
- Examination reports to be kept for the following periods of time:
 - Before first use, the examination reports of the lifting equipment should be kept until the equipment is no longer in use. This applies to both installed and freestanding equipment.
 - Before first use, examination reports of lifting accessories should be kept for a minimum two years after the report was made.
 - Ongoing examination reports should be kept until the next examination report is received or for a period of 2 years whichever is later.

Lifting equipment documentation is kept by the Site Manager and kept in the Site Manager's office.

Further information and guidance on LOLER can be found in the following documents:

- "Simple guide to the Lifting Operation and Lifting Equipment Regulations 1998" HSE INDG 290.
- "Thorough examination of lifting equipment – a simple guide for employers" HSE INDG 422.
- "Thorough examination and testing of lifts – simple guidance for lift owners" HSE INDG 339.

3.22 Lone Working

The Health and Safety at Work Act places a duty on employers to ensure the health, safety and welfare of employees. The Management of Health and Safety at Work Regulations require employers to make a suitable and sufficient assessment of the risks to health and safety of employees to which they are exposed whilst at work. This will include the risks to staff from lone working.

Lone workers have been defined by the HSE as 'those who work by themselves without close or direct supervision'. Lone workers are found in a wide range of situations, and can be divided into those who work at fixed establishments (where only one person is on site, where people work separately from others, or where people are working out of normal working hours), and those who are mobile workers, working away from their main working base.

This Establishment will ensure that all lone working activities are identified, and the risks from such lone working activities are assessed and control measures identified and implemented to minimize the risk to the health and safety of staff.

It is the responsibility of the Health & Safety Co-ordinator to identify all lone working activities within the school and ensure that a suitable risk assessment is undertaken for each.

The responsibility for undertaking lone working risk assessments and ensuring the outcomes are communicated to the lone workers lies with the Health & Safety Co-ordinator.

All staff that work alone must be competent to carry out the activities they are engaged in, must have received sufficient information to enable them work alone safely and to be able to summon help and assistance if required.

It is the responsibility of the Health & Safety Co-ordinator to ensure lone workers have received adequate lone working information and training, and for keeping training/briefing records.

It is the responsibility of all staff to follow the defined lone working procedures and safe systems of work, and to report immediately any problems or concerns to their line manager.

Please see the Security Policy and lone working risk assessments for more information. Further guidance is available in the HSE document Working alone (INDG73).

3.23 Manual Handling

The Manual Handling Operations Regulations apply to a wide range of manual handling activities, including lifting, lowering, pushing, pulling or carrying. These regulations place specific duties on employers and employees.

Employers are required to:

Avoid the need for manual handling, so far as is reasonably practicable;

Assess the risk of injury from any hazardous manual handling that can't be avoided; and

Reduce the risk of injury from hazardous manual handling, so far as is reasonably practicable.

The Site Manager will be responsible for carrying out risk assessments for all manual handling activities, which constitute a significant risk of injury to staff and to update and review as necessary.

The risk assessment will be recorded using the Manual Handling Assessment Form, completed copies of which are located the School Business Manager's Office.

Employees are required to:

- Follow appropriate systems of work laid down for their safety;
- Make proper use of equipment provided for their safety;
- Co-operate with their employer on health and safety matters;
- Inform the employer if they identify hazardous handling activities;
- Take care to ensure that their activities do not put others at risk.

All staff members involved in manual handling will be given suitable and sufficient information, instruction, training and supervision. Training will be recorded, monitored and reviewed.

Training records will be maintained by the Site Manager and are held in the electronic Health and Safety Archive.

If a member of staff develops any medical/physical condition, the responsible person should be made aware immediately. A specific risk assessment must be carried out to cover the activities/tasks and control measures should be taken accordingly.

Further advice can be found on the HSE website www.hse.gov.uk

INDG 143- Getting to grips with Manual Handling

3.24 Medicines

In general, medicines must not be brought into school. However if a pupil has a medical condition that requires regular medication during the school day or medicine in the event of an emergency, then arrangements for administration must be made between the Establishment and the pupil's parent/guardian. These arrangements must be in the form of

an agreed Care Plan.

A list of pupils with medical conditions and their care plans can be found in the Medical Room. Prescribed medicines are stored in the Medical Room.

Protocols for pupils with serious medical conditions should be displayed in the prominent locations around the Establishment, e.g. staffroom, medical room and relevant classrooms. The protocols and care plans should be clearly marked with the pupil's name and an up to date photograph.

Registers should be clearly marked to alert supply teachers of any pupils with medical needs.

All staff involved in the administering of medicines should be appropriately trained, e.g. epi-pen training.

Appropriate records in relation to the administration of medicines should be maintained at all times. A Medication Administration Permission Form must be completed and signed by the parent or guardian, and a Medication Administration Record Sheet completed each time medicines are administered.

More detailed information can be found in the Department for Education document 'Managing Medicines in Schools and Early Years Settings'.

3.25 Minibuses

The school now has a minibus.

Appropriate procedures are in place to keep the vehicle taxed, insured, serviced and MOTed.

Only named drivers who have a 'D1' category on their license can drive the vehicle and will also have appropriate training or experience.

A risk assessment for use of the vehicle is also in place for general use and will be part of any educational visits risk assessment.

3.26 Monitoring – Audits & Inspections

In order to ensure health and safety arrangements are working and that risk control measures are effective and are being maintained, it is necessary to monitor health and safety performance. Monitoring also ensures that lessons are learnt from any incidents, accidents or causes of ill health.

This Establishment will carry out the following monitoring:

- Daily checks by the Site Manager in addition to detailed termly inspections of the school (these could be in conjunction with inspections by establishment safety representatives). A written record of identified items must be kept;
- Routine equipment maintenance checks either carried out by staff of the

establishment or by external contractors, as appropriate, including access equipment, fire extinguishers, fume and dust extraction systems, portable electrical appliances, PE equipment including climbing frames etc;

- Investigations of incidents, accidents, causes of ill health and complaints as appropriate to the circumstances;
- Reviewing accident statistics by governing board to identify causes of accidents; and
- Reviewing audit reports detailing the performance of the school’s health & safety management system.

This Establishment will also carry out a formal inspection at least twice a year using an inspection checklist

The Health and Safety team will arrange for a formal audit at this Establishment on a periodic basis.

Records of maintenance checks, inspections etc are located in:

Record Type	Location	Responsible Dept/Person
Accident records	Medical Room	Welfare Officer
Site Manager’s inspections	Site Manager’s office	Site Manager
H&S Co-ordinator inspections	Site Manager’s office	H&S Co-ordinator
6 monthly inspections	Site Manager’s Office	Site Manager
LBR audit reports	School Business Manager’s Office	School Business Manager

3.27 New & Expectant Mothers

The Management of Health & Safety at Work Regulations place a duty on employers to undertake a suitable and sufficient assessment of the risks to the health and safety of their employees, to which they are exposed whilst at work in order to identify the measures that need to be taken to comply with health and safety legislation.

In addition, the Regulations identify two groups of workers; new and expectant mothers and young persons; for whom a specific risk assessment must be undertaken, or an existing risk assessment must be reviewed in order to identify any additional control measures that may need to be taken.

A “new or expectant mother” is taken to mean an employee who is pregnant; who has given birth within the previous six months; or who is breast-feeding.

When a member of staff notifies the School in writing that she is any of the above, then a

specific risk assessment must be carried out to cover the activities and tasks that person undertakes and any specific hazards that may be involved during the course of her work.

The main areas of concern for new and expectant mothers fall into three main categories of physical, biological and chemical.

Further advice can be found in the following documents available on the HSE website www.hse.gov.uk:

HSG 122 – New and Expectant Mothers at Work – An Employers Guide

INDG 373 – A Guide for New and Expectant Mothers who Work

3.28 Noise at Work

The Control of Noise at Work Regulations are in place to ensure that worker's hearing is protected from excessive noise at their place of work, which could cause them to lose their hearing and/or suffer from tinnitus.

It is the responsibility of the employer to assess and identify measures to eliminate or reduce risks from exposure to noise. Where the risks are low, the actions taken may be simple and inexpensive, but where the risks are high, they should be managed using a prioritised noise-control action plan.

As a general rule in this Establishment noise will be considered to be a hazard if:

- Staff have to raise their voices to carry out a normal conversation when about 2 m apart for at least part of the day
- Staff use noisy powered tools or machinery for more than half an hour each day
- Staff are exposed to high levels of noise for a significant part of their working day.

Where noise is perceived to be a risk to staff the Establishment will:

- Assess the risks to employees from noise at work;
- Take action to reduce the noise exposure that produces those risks;
- Provide employees with hearing protection if the noise exposure cannot be reduced enough by other methods;
- Make sure the legal limits on noise exposure are not exceeded;
- Provide employees with information, instruction, training and health surveillance

Some staff will be given particular consideration when making a noise risk assessment, for example people with a pre-existing hearing condition, those with a family history of deafness (if known), pregnant women, children and young people.

Further information and advice about noise at work can be found on the HSE website <http://www.hse.gov.uk/noise>

3.29 Personal Protective Equipment

The Personal Protective Equipment Regulations are designed to protect people from risks to their health.

The Personal Protective Equipment should be properly assessed before use to ensure it is suitable; be maintained and stored properly. Employees should be provided with instructions and training on how to use it safely and supervised to ensure the equipment is being used correctly.

PPE is defined in the Regulations as “all equipment (including clothing protection against the weather) which is intended to be worn or held by a person at work and which protects them against one or more risks to his health or safety”, e.g. safety helmets, gloves, eye protection, high-visibility clothing, safety footwear and safety harnesses.

All Personal Protective Equipment should be identified through risk assessment, but only if the control measures cannot be reduced by other means.

Use of PPE has been significantly increased across all areas since the changes reflecting the current pandemic ‘COVID-19’. Please see the ‘COVID Risk Assessment’.

3.30 Playground / Play Equipment

The Health and Safety at Work Act requires employers to ensure, not only the health, safety and welfare of employees, but also others who may be affected (i.e. pupils).

The Provision of Work Equipment Regulations requires all work equipment to be suitable for purpose, maintained in a safe working order, and regularly inspected to ensure it remains so. Although playground equipment would not strictly be regarded as work equipment, this school recognises that it has a duty of care to all pupils and this includes ensuring the equipment provided for their use is suitable, maintained in a safe working order, and regularly inspected to ensure it remains so.

Accordingly, the playground and all playground equipment is visually checked on a daily basis and a monthly inspection is also undertaken by the Site Manager. These checks will be recorded and signed by the person responsible for undertaking them.

The responsible person for maintaining the playground and playground equipment is Site Manager. Records of playground and playground inspections are located in the Site Manager’s office.

3.31 Ponds

The Management of Health & Safety at Work Regulations require that employers assess the risks to the health and safety of their employees, and others who may be affected by their acts or omissions.

The risk assessment should be undertaken by a competent person and identify the significant risks and the control measures to reduce those risks to an acceptable level. The assessment should be regularly reviewed.

The person responsible for undertaking, and regularly reviewing a risk assessment of the pond and its use as an educational setting is the Science Lead.
The Site team are responsible for securing and keeping the pond and surrounding area clean and safe.

3.32 Risk Assessment

The Management of Health and Safety at Work Regulations require employers to make a suitable and sufficient assessment of the risks to health and safety of employees to which they are exposed whilst at work, and any others who may be affected by their undertaking.

The risk assessment must be recorded, and reviewed if it is no longer valid, if there have been significant changes in the matters to which it relates, or annually, whichever is the sooner.

Amanda Irons will be responsible for ensuring that risk assessments are undertaken, recorded and reviewed within the establishment.

The responsibility for carrying out risk assessments lies with the following staff
Amanda Irons (School Business Manager) and Stephen Tindling (Site Manager) – All non-curriculum
Kimberley McKoy – Work Experience and Teacher Training Placements
Kimberley Mckoy – Early Years Foundation Stage
Curriculum Team Leaders - Curriculum risk assessments

Copies of current risk assessments are located in the electronic Risk Assessment file in the teaching:Drive

Employees' have a duty to cooperate with their employer when they are conducting risk assessments and for cooperating with them in implementing any remedial action or control measures to reduce the risk.

Staff involvement and consultation will be ensured during the risk assessment process.

Note: the Regulations stipulate that a specific risk assessment must be undertaken for New and Expectant Mothers, Young Persons (under 18 years of age). Statutory risk assessments are also required for COSHH, DSE, Personal Protective Equipment & Manual Handling.

3.33 Safety, Signs and Signals

The Health and Safety (Safety Signs and Signals) Regulations places duty on employers to use and maintain appropriate health and safety signs, in order to make persons aware of risks, where the risk to health and safety cannot be avoided or adequately controlled by other means.

This Establishment will ensure that where the requirement for the posting of a safety sign has been identified, such signs are posted at suitable locations, conform to the relevant standards and are adequately maintained.

It is the responsibility of H&S Co-ordinator to ensure that health and safety signs are displayed and adequately maintained.

Staff will be provided with appropriate instruction, information and training in the use and understanding of safety signs, as applicable.

Staff should report missing or damaged safety signs to the H&S Co-ordinator

Further information on safety signs and signals can be found on HSE website www.hse.gov.uk:

HSE leaflet INDG184 "Signpost to The Health and Safety (Safety Signs and Signals) Regulations - Why do we need these Regulations?"

HSE leaflet INDG 352 "Read the Label – How to find out if chemicals are dangerous"

3.34 Security

Specific responsibility for school security is not set down in legislation. However, school security is related to health and safety, therefore whoever has responsibility for health and safety should consider what security measures are necessary to ensure, as far as reasonably practicable, the safety of the staff and pupils.

The health and safety co-ordinator within the school may assume the responsibilities for school security. Alternatively schools may wish to appoint a school security co-ordinator who will develop a knowledge and understanding of security issues within the premises.

Jas Leverton, Stephen Tindling, the Site Team and the Letting Officers have responsibility for school security issues.

The two principal aspects of security in an education setting are the security of school premises both during school hours and out of school hours and secondly the personal safety of staff and pupils.

There are a number of methods for enhancing security. Knowledge of previous incidents and seeking advice from relevant internal and external agencies will be considered when

determining the most appropriate security measures.

Examples of security measures:

- Controlled entry system at gates and main entrance.
- Fencing around perimeter
- Intruder alarm system
- Visitors signing book and badge system
- Procedures for dealing with trespassers
- Appropriate recording procedures for incidents relating to security

Internal/ External Agencies:

- LBR – health and safety advisors, property services etc
- Police – in particular, Crime Prevention and School Officers
- Fire and Rescue Services – in particular, Fire Safety Officers
- www.teachernet.gov.uk/wholeschool/healthandsafety/schoolsecurity

Please see the Security Policy for more information

3.35 Smoking

The Smoke free Regulations were introduced in England to make virtually all enclosed public places and workplaces in England smoke free.

As a result this establishment is a strictly no smoking establishment.

The Regulations require the displaying of no-smoking signs in all smokefree premises and vehicles.

No-smoking signs, which meet the requirements of the law, are displayed in the following locations: All Entrance doors

Further information can be found on the Smokefree England website and in the LBR Smoking Policy.

3.36 Slips and Trips

The Health & Safety at Work Act requires employers to ensure the health, safety and welfare of employees and others who may be affected. The Act also requires the provision of a place of work that is maintained in a safe condition, and a means of access and egress that is safe and without risk.

This establishment recognises that good housekeeping is essential to preventing slip and trip accidents. Accordingly the following measures will be taken to ensure good housekeeping:

Formal recorded workplace inspections will be undertaken by Amanda Irons and/or Stephen Tindling on a six monthly basis

Informal workplace inspections will be undertaken by Amanda Irons and/or Stephen Tindling on a half termly basis

All staff are responsible for undertaking informal daily checks of their own work areas.

Informal daily checks of the communal areas of the school will be undertaken by the Site Manager

Where action is identified during workplace inspections but cannot be implemented immediately, interim measures will be taken and an action plan produced to outline when the action will be implemented, who will be responsible for ensuring it is implemented and the estimated completion date.

Copies of the action plan and formal workplace inspection records will be kept by the Site Manager on the electronic Health and Safety Archive

3.37 Swimming Pool

The school does not have a swimming pool.

Swimming lessons and activities take place at Fulwell Cross Pool and a risk assessment is in place.

3.38 Traffic Management

The Workplace (Health, Safety and Welfare) Regulations require that workplaces are organised to ensure that vehicles and pedestrians can move around safely. This includes organisation of traffic routes to enable pedestrians and vehicles to circulate safely.

A risk assessment of traffic management within the school grounds and immediate vicinity should be carried out.

The following key issues were considered when carrying out the traffic management risk assessment:

- By law, pedestrians or vehicles must be able to use a traffic route without causing danger to the health or safety of people working near it;
- Roadways and footpaths should be separate whenever possible;
- Protection for people who work near vehicle routes;
- By law, traffic routes must also keep vehicle routes far enough away from doors or gates that pedestrians use, or from pedestrian routes that lead on to them, so the safety of pedestrians is not threatened;

- As far as possible, parked vehicles are kept out of the flow of traffic and people;
- Drivers are notified of designated parking areas on entering the site;
- Parking areas are demarcated, which reduces manoeuvring and reversing for large vehicles;
- As far as possible, avoid reversing. When this is unavoidable make sure effective systems are in place to control it;
- As far as possible schedule vehicle movements to prevent overcrowding, of site and surrounding roads;
- By law, traffic routes must also be suitably indicated where necessary for reasons of health or safety;
- Install clear signs to tell drivers and pedestrians about the routes they should use;
- Where signposts are used, they should be constructed to Highway Code Standards; and
- Make sure the signs are kept clean and visible.

A copy of the traffic management risk assessment is located in the electronic Risk Assessment folder located on the Teachers:Drive

Further information on workplace transport is available from www.hse.gov.uk/workplacetransport/

3.39 Violence/Personal Safety of Staff

The Health and Safety at Work Act places a legal duty on employers to ensure the health, safety and welfare of employees at work.

The Management of Health and Safety at Work Regulations places duty on employer to consider and assess the risks to employees. This would include the risk of reasonably foreseeable violence.

Violence may be defined as any incident in which a person is abused, threatened or assaulted, either physically or verbally, in circumstances relating to their work.

Physical or verbal abuse of staff within this school will not be tolerated and the School fully endorses the LBR Personal Safety of Staff Policy and procedures. Consequently a risk assessment will be undertaken to identify and minimise the risk to staff from potentially violent persons or situations.

Amanda Irons is responsible for undertaking a risk assessment to cover potential violence at work. A copy of the current risk assessment is located in the Risk Assessment folder in the School Business Manager's Office.

Staff will, where appropriate, receive information, instruction and training on the risks from potential violence and aggression, and how to avoid or minimise potential violent or aggressive situations.

It is the responsibility of H&S Co-Ordinator to ensure that staff are provided with appropriate information, instruction and training.

All acts of physical or verbal abuse must be reported using the appropriate report procedures. See the relevant section of this policy for further information.

As an employer the school will support any employee who is assaulted or threatened in the course of their duties.

In addition, there is an Employee Assistance Programme available to all staff, which offers a 24-hour confidential helpline.

3.40 Waste including Waste Electrical & Electronic Equipment (WEEE) Regulations

All waste generated by this Establishment will be disposed of responsibly.

General waste will be disposed of in the wheelie bins provided by the Borough.

Any hazardous waste will be disposed of in accordance with the Hazardous Waste Regulations. This may be via LBR facilities or through a specialist licensed contractor.

Any waste being stored on site must be stored in such a way so as not to pose a risk to staff or pupils.

Waste is considered 'hazardous' under environmental legislation when it contains substances or has properties that might make it harmful to human health or the environment. Examples of hazardous waste include, fluorescent tubes, car batteries, insulating oils.

Any electrical or electronic waste must be disposed of in accordance with the Waste Electrical and Electronic Equipment (WEEE) Regulations.

Any third party taking either hazardous waste or WEEE must be a registered waste carrier. The waste must be accompanied by a waste transfer note or hazardous waste consignment note (as appropriate) and taken to a suitable facility.

A record of all waste documentation (transfer notes, copies of licences) must be kept by the Establishment.

Waste disposal from the School will be organised by the Site Manager

Details of waste collection contracts:

Type of Waste Material	Frequency of Collection	Name of Collector	Contact details
------------------------	-------------------------	-------------------	-----------------

Daily waste	Weekly	LBR Waste	Sara-Jayne Hedaux 0208 7085113
Medical waste	As needed	LBR Waste	Book via town hall switchboard 0208 478 3020
ICT and electrical items	As needed	Computer Disposals Limited	Paul Gibbons 01925 730033 paul@computerdisposals.com
Florescent Tubes	As needed	UFM	Nicky Thorpe 01268548346

Members of staff must not take waste in their own private vehicles or in any LBR vehicle unless they are a registered waste carrier (i.e. it is no longer possible to take waste directly to a municipal refuse site).

3.41 Work Equipment

The Provision and Use of Work Equipment Regulations (PUWER) apply to all types of work equipment. The Regulations generally apply to any equipment that is used by an employee at work, for example hammers, knives, ladders, drilling machines, circular saws, photocopiers, lifting equipment (including lifts) and motor vehicles.

In general terms the Regulations require that equipment provided for use at work be:

- Suitable for the intended use;
- Safe for use;
- Maintained in a safe condition;
- Inspected;
- Used only by people who have received adequate information instruction and training; and
- Accompanied by suitable safety measures, e.g. guards, markings, warnings

In addition to PUWER, the Management of Health and Safety at Work Regulations require employers to carry out suitable and sufficient risk assessment of the risks to which employees are exposed to at work including work equipment.

The Establishment will ensure that risk assessments are in place for specific pieces of equipment and effective measures taken to control the hazards associated with the use of equipment.

This Establishment requires all employees and students who use equipment to undertake pre-use inspections to identify any obvious defects (e.g. damaged casings, exposed wiring, etc.). All defects to work equipment must be reported and the equipment taken out of use until the defect is rectified.

Defects should be reported to the Site Manager

All the equipment provided must only be used for its intended purpose.

Staff must not use work equipment unless they have received appropriate training and must use the equipment in an appropriate manner, according to the information received in training and instructions from their line manager. Students using the work equipment must be supervised at all times.

It is the responsibility of H&S Co-ordinator to arrange staff training, and to ensure that records of staff training are maintained.

All work equipment, where the failure of said item could result in a significant risk of injury, are to be subject to at least an annual maintenance/inspection by a competent person/organization. Where legislation imposes specific duties to undertake inspections at set frequencies these will be carried out in accordance with the Regulations. The written records of the inspection and maintenance, should be maintained and be available for examination.

Annual inspection and maintenance will be carried out by the Site Manager or United FM and records are maintained by the Site Manager and held in the Site Manager's office and electronic Health and Safety Archive.

This Establishment only permits designated staff to undertake modifications to equipment. The Health & Safety Co-ordinator holds a list of designated staff and the limits of their authority to undertake such work.

Staff and pupils may not bring their own personal electrical appliances into the School.

The Health & Safety Co-ordinator can advise on how to have equipment checked.

When work equipment has reached the end of its working life or is no longer required it must be written-off in the asset register and then disposed of safely. Under no circumstances may equipment be sold or passed-on to a third party.

3.42 Work Experience and Young Persons

Students on work placements/experience are regarded in health and safety law as employees and therefore must be provided with the same health, safety and welfare protection given to other employees.

Work experience may be defined as a placement on an employer's premises in which a student carries out a range of tasks or duties, more or less as an employee, but with the emphasis on the learning aspects of the experience

Students who are under the age of 18, taking part in work experience/placements, are considered Young Persons under health and safety law. The Management of Health and Safety at Work Regulations require employers to specifically take account of young persons when carrying out their risk assessments.

If young persons have not previously been employed in the workplace, then existing risk assessments should be reviewed accordingly. The assessment of risks to 'young persons' must be carried out before their employment or work placement period begins.

Kimberley Mckoy will be responsible for carrying out risk assessments and maintaining records. Significant findings will then be brought to the attention of students on work experience, and the measures they need to take to avoid the risk before they work in the area.

assessment before the placement begins.

All young people and students on work experience will be provided with appropriate induction, information, instruction, training and supervision.

Where the school's own students undertake work experience with a local employer, the school will ensure that pre-placement checks of health, safety and welfare arrangements at the employers' premises are carried out by suitably qualified and competent people. They must also ensure that students are prepared for, supported and monitored appropriately during work placement programmes.

Kimberley McKoy will be responsible for carrying out health, safety and welfare arrangements pre-placement checks (including risk assessments) and ongoing monitoring during placement period.

Kimberley McKoy will be responsible for managing work experience placements.

Any pupil undertaking work experience at this Establishment will be given an induction, which will be recorded using the Work Experience Induction Checklist.

Completed checklists are located in the Deputy Head's Office

3.43 Working at Height

The Work at Height Regulations requires that, "every employer shall take suitable and sufficient action to prevent, so far as is reasonably practicable, any person falling a distance liable to cause personal injury".

Under the Management of Health and Safety at Work Regulations the Employer has duties to undertake risk assessments including the duty to identify, assess and control risks on their premises.

This establishment will assess the risks from working at height and make plans to either avoid the work at height, or to do the work more safely.

The Site Manager will be responsible for carrying out the risk assessment for each activity involving significant risk whilst working at height and maintaining the records.

Where work at height cannot be avoided suitable and appropriate work equipment will be provided. It will be inspected, tested and maintained on a regular basis by a competent person and records will be kept.

An annual inspection of the ESCA 3000 equipment used to work at height will be carried out by ESCA

This establishment has a Ladder Checklist and a TASS Checklist to record the inspection and maintenance of ladders and/or other access equipment.

The checklists are located in the Site Manager's Office and will be maintained by the Site Manager.

Staff using the equipment should carry out visual checks prior to every use. They must follow defined work procedures and safe systems of work whilst working at height. Any faulty equipment should be taken out of use immediately and the appropriate manager should be informed.

All staff members involved in working at height will be given full information, instruction and training in the use of any relevant equipment.

Further information can be found on HSE website www.hse.gov.uk/

Advice for teachers and classroom assistants is available in the HSE document "Keeping safe when working at height"

The HSE document "Practical guidance for schools on working at height"

The Ladder Association "Ladder Book"

3.44 Workplace (Health, Safety & Welfare)

Employers have a general duty under the Health and Safety at Work Act to ensure the health, safety and welfare of their employees at work, and others who are not employees but use their premises.

The Workplace (Health, Safety and Welfare) Regulations expand on these duties and are intended to protect the health and safety of everyone in the workplace and to ensure adequate welfare facilities are provided for people at work.

The Regulations require employers to make provision for the following:

- Maintenance of a safe workplace, equipment and systems of work;
- Suitable and sufficient ventilation, lighting and indoor temperature;
- A clean workplace and furnishings with easy to clean surfaces;
- Sufficient work space with suitable work stations and seating;
- Floors and traffic routes of suitable condition and free from damage or hazards;
- The prevention of people falling from height, or being struck by falling objects;
- Windows (and other transparent/translucent surfaces) made of safe materials, that

do not expose people to risks to their health & safety, and are able to be cleaned safely;

- Traffic routes organised to allow pedestrians and vehicles to circulate in a safe manner;
- Suitable and sufficient toilets and washing facilities;
- An adequate supply of drinking water;
- Accommodation for personal or work clothing, and adequate facilities for changing clothing where necessary;
- Facilities for rest and to eat meals.

This Establishment will ensure that suitable arrangements are in place to cover these provisions, so far as is reasonable practicable. In order to monitor this, a regular workplace inspection will be undertaken using a workplace H&S Inspection checklist.

Workplace inspections will be undertaken by Amanda Irons and Stephen Tindling on a six monthly basis

Workplace inspection records will be kept by the Site Manager and are located in the electronic Health and Safety Archive

The responsibility for building and equipment maintenance lies with the School Business Manager and Site Manager and any building or equipment defects or hazards should be reported to them.

4 Access to Policy Statement

A copy of this statement is to be made available to all employees.

4 Names of Key Staff

Designation	Name
Head Teacher	Jas Leverton
Deputy Head Teacher	Darshan Kaur
Deputy Head Teacher	Cassim Bana
School Business Manager	Amanda Dyer-Irons
Health & Safety Co-ordinator	Stephen Tindling
COSHH Co-ordinator	Stephen Tindling
Educational Visits Coordinator	Stephen Tindling
Premises Manager	Stephen Tindling
